AI: signals, shocks,  
and strategic shifts

15:00 - 18:00  
10 FEBRUARY 2026,  
ROYAL DINING HALL,  
CHEVAL MAISON, EXPO CITY

---

INVITATION ONLY

# Where healthcare's future is decided

**Future Health Summit** is an **exclusive, invitation-only leadership forum** that brings together healthcare executives, policymakers, innovators, and investors to decode the transformative impact of Artificial Intelligence across global health systems.

Designed for high-level networking and knowledge exchange, the summit blends insight-driven discussions with curated interactions, offering an unparalleled opportunity for **C-suite leaders and partners** to discuss pressing issues and policies that **shape the AI health agenda** for the decade ahead.

Through private, moderated roundtable discussions, participants engage in candid, closed-door dialogue to examine real-world challenges, pressure-test ideas, and align on priorities for responsible and scalable AI deployment across global health systems.

In this highly curated environment, conversations focus on how future policy must be shaped in order to navigate **the next decade of healthcare.**

# AI: signals, shocks, and strategic shifts

This year's theme explores three dimensions defining the decade ahead, and how leaders need to react:

## Signals

Emerging patterns, data and early indicators shaping the future of care.

## Shocks

System-level disruptions, risks and inflection points driven by rapid AI adoption.

## Strategic shifts

The frameworks needed to build resilient, intelligent and equitable healthcare systems.

# Advancing global healthcare

Future Health Summit 2026 is a strategic platform built for leaders who shape policy, investment and innovation.

At FHS, senior leaders will access:

-  The people who influence global health strategy
-  Curated, private roundtable discussions designed to drive action
-  Real-time insight exchange across governments, health systems, investors and technology innovators
-  Intelligence-led conversations moderated by leading experts
-  Partner-hosted interactions focused on practical, scalable solutions
-  Actionable recommendations distilled from multi-stakeholder perspectives

# Agenda

<b>15:00</b> Guest arrival and welcome remarks	<b>Emcee:</b> Christophe Jauquet, Health Business Expert, Health Innovator, Founder of #healthusiasm, Ghent, Belgium
<b>15:10</b> Opening remarks	<b>Dr. Marwan Al Kaabi, Chief Executive Officer, SSMC</b>
<b>15:25</b> Opening Keynote: From Reactive to Proactive Care: How AI Is Redefining the Future of Healthcare	Parminder Bhatia, Global Chief AI Officer, GE Healthcare
<b>15:45</b> Roundtable challenge discussions	Participants divide into thematic tables to address specific AI-related challenges.
<b>16:45</b> Intermission	Curated networking and sponsor-hosted interactions.  <b>Topic 1:</b> Value-Based Care, ROI & Financing Models for AI (Powered by GE Healthcare) <b>Topic 2:</b> Infrastructure and Interoperability for AI Scalability (Powered by Palo Alto Networks) <b>Topic 3:</b> Governance, Regulations & Responsible AI (Powered by Care Safet Innovations) <b>Topic 4:</b> AI in Clinical Decision-Making and Workforce Evolution (Powered by PWC)
<b>17:00</b> Panel Discussion: Summary of Round Table Discussions	<b>Moderator:</b> Christophe Jauquet, Health Business Expert, Health Innovator, Founder of #healthusiasm, Ghent, Belgium  Panelist: <ul style="list-style-type: none"><li>• <b>Tarek Abdelhameed</b>, GM, Solutions Architecture and Lifecycle Management, GE Healthcare</li><li>• <b>Lars M. Saether</b>, Executive Chairman &amp; CEO, Care Safety Innovations</li><li>• <b>Lina Shadid</b>, Health Industries Leader, PWC</li></ul>
<b>17:35</b> Closing Keynote	<b>Dr. Marwan Al Kaabi, Chief Executive Officer, SSMC</b> <b>Roland Eid</b> , Senior Business Development Director EMEA, <b>Palo Alto Networks</b>
<b>17:50</b> Closing remarks	Christophe Jauquet, Health Business Expert, Health Innovator, Founder of #healthusiasm, Belgium
<b>18:00</b> Networking	Open networking reception with decision-makers, sponsors, and government representatives.
<b>19:00</b> FHS Convenes	

# Future Health Summit roundtables

IMPACTFUL. EXCLUSIVE. CURATED

## The format

Each roundtable brings together up to **8 carefully selected senior leaders** for a private, invitation-only dialogue focused on a single strategic challenge shaping AI in healthcare.

FHS curates every element including topic framing, participant selection, expert moderation and session flow. This ensures discussions remain focused; to enable each member to share their perspective on topics and align on strategic inputs.

## You will gain:

- ✔ Direct access to influential decision makers
- ✔ Professionally moderated, insight driven discussions
- ✔ Cross sector market intelligence
- ✔ Authentic, high trust relationships
- ✔ Clear, actionable insights

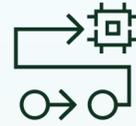

## Roundtable 1

### Data Quality, Ownership & Cybersecurity

This roundtable examines how health systems can improve data accuracy, ownership, and security to enable AI at scale. Discussions focus on national data standards, stewardship responsibilities, privacy-preserving access, and cybersecurity frameworks across public and private healthcare systems.

#### Key Stakeholders:

- Chief Data Officers (CDO)
- Chief Information Security Officers (CISO)
- Chief Digital Health Officers
- Directors of National Health Information Exchange
- AI & Data Governance Regulators
- Hospital CIOs & Data Strategy Leads
- Cybersecurity Architecture Directors

## Roundtable 2

### AI in Clinical Decision-Making and Workforce Evolution

This discussion explores how AI can augment clinical decision-making while preserving human oversight. Discussions points include workforce readiness, evolving clinical roles, training needs, and the integration of AI into everyday clinical workflows.

#### Key Stakeholders:

- Hospital CEOs / Chief Clinical Executives
- Chief Medical Officers (CMO)
- Directors of Clinical Informatics
- Heads of Medical Education & Workforce Transformation
- Chairs of Clinical Departments (Radiology, Oncology, Internal Medicine, Surgery)
- Senior Clinicians using AI-enabled tools
- Directors of Digital Health Training & Professional Development
- AI Clinical Product Leads from industry

## Roundtable 3

### Infrastructure and Interoperability for AI Scalability

This roundtable focuses on the digital foundations required to scale AI across healthcare systems. Discussions address infrastructure readiness, interoperability, cloud strategy, and cross-sector partnerships needed for sustainable and connected AI ecosystems.

#### Key Stakeholders:

- Chief Information Officers (CIO)
- Chief Technology Officers (CTO)
- Heads of Digital Infrastructure / Cloud Strategy
- Directors of Interoperability & Health System Integration
- Payer & Insurance Digital Strategy Leaders
- Hospital System Operations Executives
- Senior Engineers/scientists from global tech firms
- National Digital Transformation Program Leaders

## Roundtable 4

### Value-Based Care, ROI & Financing Models for AI

This discussion examines how AI can deliver measurable value across healthcare systems. Topics include ROI measurement, reimbursement and financing models, value-based care alignment, and incentives that support long-term, responsible AI adoption.

#### Key Stakeholders:

- Chief Financial Officers (CFO) of Health Systems
- Payer CEOs / Insurance Medical Directors
- Directors of Health Economics & Outcomes Research (HEOR)
- Heads of Reimbursement & Payment Innovation
- Strategy & Value-Based Care Directors
- Pharma / Medtech Market Access Executives
- Senior Partners from Healthcare Advisory Firms
- Investors specialising in digital health economics

## Roundtable 5

### Governance, Regulations & Responsible AI

This roundtable explores the governance frameworks required to ensure safe, transparent, and accountable AI deployment. Discussions focus on regulation, ethics, risk management, and balancing innovation with public trust.

#### Key Stakeholders:

- Policy Leaders responsible for digital regulation
- Heads of National AI Regulatory Authorities
- Chief Legal Counsels & Data Protection Officers
- Directors of Ethics & Compliance
- Regulatory Affairs Executives
- Health Technology Assessment (HTA) Leaders
- Hospital Governance & Quality Leaders
- AI Safety & Responsible Innovation Directors

# Shape the next decade of healthcare

Future Health Summit 2026 is a catalyst for global collaboration. A forum designed for leaders who navigate complexity, drive innovation and influence the future of care.

Join us to shape the future of AI in healthcare.

# Sponsorship packages

## Headline Partner Package

This is the most prominent sponsorship package, offering maximum visibility, key speaking opportunities and engagement in the roundtables.

1 x Opening Remarks

1 x Closing Remarks

2 x Moderators in Roundtables to drive discussions and present Key Findings to the audience

15 x Invites to staff members

Logo exposure in event branding as Headline Partner

Logo exposure in Key Findings report to be published post-event

A 10 sec video to be displayed in digital screen

Bespoke targeting of your wish list of clients

Verbal acknowledgment at the opening and closing session

**Price: \$100,000**

## Content Partner Package

Focuses on thought leadership including the keynote speaking opportunity as the Partner Insight Session.

1 x Partner Insight session speaking opportunity

1 x Moderator in Roundtable discussions to drive discussions and present Key Findings to the audience

5 x Invites to staff members

Logo exposure in event branding as Content Partner

Logo exposure in Key Findings report to be published post-event

A 10 sec video to be displayed in digital screen

Bespoke targeting of your wish list of clients

**Price: \$60,000**

## Strategic Engagement Partner

Focuses on facilitating connections and interactions between attendees.

1 x Moderator in Roundtable discussions to present Key Findings to the audience

5 x Invites to staff members

Logo exposure in event branding as Networking Partner

Logo exposure in Key Findings report to be published post-event

A 10 sec video to be displayed in digital screen

Bespoke targeting of your wish list of clients

Verbal acknowledgment at the opening and closing session

**Price: \$30,000**
