Biography

Dr Chow Weien is the Chief Data and Digital Officer (CDDO) at Changi General Hospital (CGH). He oversees operation of the hospital IT systems, data governance, data science intelligence and deployment of AI and digital solutions to enhance hospital operations and patient outcomes. He has been involved in Value Based Healthcare, population health and enterprise risk management programmes. Dr Chow is also the Head and Senior Consultant of the Department of Cardiology at CGH with sub-specialisation in multi-modality cardiac imaging.

About the Organization

Delivering trusted care since 1935, Changi General Hospital (CGH) is a tertiary referral centre with over 1,000 beds, caring for more than 1 million people in Singapore. CGH is committed to medical research and education, clinical innovation and care for patients through a comprehensive range of medical specialties and services. Helmed by a multi-disciplinary, dedicated team of healthcare professionals, CGH consistently delivers positive patient and population health outcomes. CGH is a member of the SingHealth cluster of healthcare institutions.
