Phyathai 3 Hospital

Title

Executive Hospital Director

 **Location** Thailand

Biography

Dr. Suraphol Losiriwat is a highly experienced Thai physician and healthcare executive currently serving as the Executive Hospital Director of Phyathai 3 Hospital, which is part of the BDMS hospital network. He earned his Bachelor of Science and Doctor of Medicine degrees from Chulalongkorn University and later specialized in pediatrics. Throughout his career, he has further strengthened his expertise with advanced training in hospital administration, occupational medicine, strategic management, and healthcare leadership, including a Mini MBA in Health and a Master's degree in Executive Finance. Dr. Suraphol Losiriwat has played an important leadership role in Thailand's healthcare system, serving on numerous national committees related to public health policy, hospital standards, infectious disease control, maternal and child health, and medical service quality. He has also held executive and advisory positions in major private hospital networks and professional healthcare organizations. With decades of experience in both clinical medicine and hospital management, he is widely recognized for his contributions to improving healthcare systems and medical service standards in Thailand.

About the Organization

Phyathai 3 Hospital, established on October 4, 1996, provides medical services for the Thonburi area in Bangkok. Located on Phetkasem 19 Road, the hospital occupies 10,228 square meters and has a 230-bed facility equipped with modern technology. It can serve up to 2,000 outpatients per day, averaging 42,000 monthly visits. The hospital offers comprehensive healthcare, with key strengths in its Women's Health Center, one of Southeast Asia's largest Children and Adolescent Health Centers, the Heart Center, and the Brain and Neurology Center. It is recognized for minimally invasive spine surgery and orthopedic procedures such as Total Knee Arthroplasty. Following the Phyathai Hospital Group philosophy, it aims to "be a leader in creating good health for the potential of life." Committed to continuous improvement under Thailand's Ministry of Public Health standards and the Advance Hospital Accreditation (AHA) program, the hospital is trusted both locally and internationally. By combining global medical standards with compassionate Thai hospitality, it seeks to enhance quality of life and deliver a patient-focused service model that strengthens its position in the healthcare industry.
