Grand Hantha International Hospital

Title

CEO

 **Location** Myanmar

Biography

Dr. Phyo Myat Khaing is the Chief Executive Officer of Grand Hantha International Hospital in Yangon, a position he has held since 2017. He also serves as a CEC member of the Myanmar Private Hospitals Association (MPHA) since 2018, contributing to the advancement of healthcare standards in Myanmar. He earned his M.B.,B.S. degree from the University of Medicine (I), Yangon, and began his career as a general practitioner, gaining two years of clinical experience. He later served as a medical team leader in the Nargis Rehabilitation Project, where he played an important role in coordinating post-disaster community health efforts. To strengthen his leadership and management expertise, he completed an MBA at the University of International Business and Economics in Beijing. In 2010, he joined the Yuzana Group of Companies as Manager of the Edible Oil Refinery. Following this role, he became extensively involved in the development of Grand Hantha International Hospital from its earliest planning stages. His responsibilities included coordinating across multiple project teams to ensure accuracy, operational alignment, and timely project execution, contributing significantly to the hospital's successful establishment. Dr. Phyo is proficient in Myanmar, English, and Chinese. Outside of his professional responsibilities, he enjoys traveling and reading.

About the Organization

Grand Hantha International Hospital is strategically located in Kamayut Township, one of the most densely populated areas of Yangon. Situated at the prominent intersection of Nar Nat Taw Street and Kye Myin Daing Kan Nar Road, the hospital offers excellent visibility and easy accessibility for patients and visitors. The hospital provides high-quality medical services 24 hours a day, 365 days a year, supported by internationally trained specialists across all major fields of healthcare. With comprehensive facilities—including 700 inpatient beds (ICU, CCU, HDU, pediatric units), a full maternity ward, an advanced central monitoring system, and deluxe to royal-class suites—the hospital delivers patient-centered care in a comfortable environment. Grand Hantha features a state-of-the-art surgical complex with 17 modular operating theaters and a CSSD built to global infection-control standards. Its advanced Imaging Department is equipped with cutting-edge technology such as a Siemens 3T MRI, 384-slice dual-source CT scanner, digital fluoroscopy, 3D mammography with tomosynthesis, DEXA scanning, and comprehensive ultrasound services. A fully automated laboratory and in-house pharmacy further support seamless diagnostics and treatment. The hospital also houses a diverse range of specialized centers, including Out-patient Clinics, Catheterization Laboratory, Chemotherapy Center, Day Surgery Center, Dental and ENT Centers, Diabetes and Nutrition Clinics, Orthopaedic and Rehabilitation Centers, Hemodialysis Unit, Endoscopy Suite, Lithotripsy Suite, Radiation Oncology, and more. Additionally, the Wellness Center offers a convenient one-stop service for preventive check-ups, including blood tests, ultrasound, X-ray, echocardiography, mammography, and payment services—all designed to ensure a smooth and efficient patient experience. Grand Hantha International Hospital continues to uphold its commitment to delivering world-class, comprehensive, and accessible healthcare to the Yangon community and beyond.
